About the location

S E E
INSTITUTE

THE SUSTAINABLE CITY OF DUBAI.

The Sustainable City Dubai is an innovative style community project located in Dubai, United Arab Emirates. It is a sustainable game changer that aims to create a harmonious balance between cutting edge urban living covering all aspects of sustainable lifestyle in an eco-conscious world.

Furthermore, the Sustainable City Dubai serves as a laboratory for sustainability research and development. It conducts studies and collaborates with academic institutions and organizations to explore innovative solutions and technologies that can be replicated and implemented in other cities globally.

Sustainable City Dubai, places a strong emphasis on community engagement and social well-being. It promotes a sense of community through various events, activities, and shared spaces where residents can interact, and build relationships.

Let's talk sustainable origami

THE SIGNIFICANCE OF THE FEATURED PAPER HAT AS WE INDULGE IN THE WEARABLE PAPER ERA . ENCOURAGING CREATIVITY AND ABSTRACT ART. PAPER FASHION IS NOT AN ENTIRELY NEW CONCEPT, AS IT HAS BEEN USED IN VARIOUS FORMS THROUGHOUT HISTORY. ORIGAMI, THE TRADITIONAL JAPANESE ART OF PAPER FOLDING, HAS LONG BEEN ADMIRED FOR ITS INTRICATE DESIGNS AND DELICATE AESTHETICS. HOWEVER, IT IS IN CONTEMPORARY FASHION THAT WE SEE PAPER BEING ELEVATED TO NEW HEIGHTS. DESIGNERS AROUND THE WORLD HAVE STARTED INCORPORATING PAPER INTO THEIR COLLECTIONS, SHOWCASING THE MATERIAL'S UNEXPECTED BEAUTY AND POTENTIAL FOR TRANSFORMATION. FROM HIGH-END COUTURE TO AVANT-GARDE CREATIONS, PAPER FASHION HAS GAINED ATTENTION ON RUNWAYS, IN EXHIBITIONS, AND EVEN IN COMMERCIAL SETTINGS. THE EMERGENCE OF PAPER FASHION REFLECTS A DESIRE FOR SUSTAINABILITY AND A RENEWED APPRECIATION FOR UNCONVENTIONAL MATERIALS.

WELCOME TO RUNWAY DUBAI FASHION SHOW 2023

MODUPE OMONZE

Founder, Runway Dubai

Welcome to the annual Runway Dubai Fashion show 2023.
Limelight edition, focused on AI technology and sustainable fashion.

AS WE EMBRACE THE WONDERS OF TECHNOLOGY. IT IS ESSENTIAL TO REVISIT AND REVERE THE GOLDEN ERAS THAT SHAPED US'.
As the fashion industry gears up for the future of advanced technology, it is essential to revisit the past like a catapult, ready to launch its payload into a metaverse.
The past of bell bottoms and puffy sleeves, oversized shades and visors, chunky belts, tube and maxi dresses.
whatever the trend may have been in the past, fashion is sure to revisit the past.
Recognizing the potential of machine learning in reshaping the fashion industry is now essential. There are these trends that may never see the light of day again.
The industry will depend on algorithms for trends.
How does the industry now wholeheartedly embrace the future at the same time?
1)changing the narrative of trends
2)Deep dive into the world of machine learning and sustainable fashion.
There is hope for a better future for fashion as the industry empowers the youth to take charge of their research environment and sustainable growth.
Social media exposure has a great impact on sustainable fashion.
People don't see value in recycling fashion. Empowering our youths to embrace thrifting, recycling, creative mix and match, vintage fashion, ethical style on social media alone, will help spark interest and kick the bad habits.
Creating trends around sustainable fashion and the likes of it.
Fast forward to the era of machine learning and artificial intelligence.
fashion is one thing that will always adapt to change, the success of the rapidly growing advanced technology in the fashion industry will depend on the machine-based learning programs as part of the curriculum, hands on learning hubs, understanding the foundation of trends and understanding the principles of machine learning and fashion technology.
The first day of the event will be unmatched opportunities in the industry for fashion sustainability workshops and insightful seminars covering topics on the way forward with technology and sustainable fashion.
panelists will dig deeper by discussing solutions and milestones so far.
Amongst the well-knowledgeable panelists are a team of powerful women in the industry.

Chitra Nair (Fashion Design lecturer at London College of Arts, UAE, and creative head of label ROOTS)
Dr Richa Gupta (Head of Department for Fashion Design at Amity University Dubai)
Vaishali Raj Sharma (Head of Fashion Design at Middlesex University Dubai)

Ben Joe (Head of Design faculty at Explore Educational Institute)

Along with participating institutions, like the RDxB Fashion School and Westford University College.

This event is focused on a fashion competition that will have students from across the globe to create
innovative and sustainable garments. The criteria to win the competition are ai inspired designs with generous use of organic cotton incorporating vintage fashion and eras.

Designs for the competition will be carefully inspected by a distinguished panel of judges.
Walid Atallah (Record holder in fashion and design; Bridal couturier based in the UAE)
Oliver Nakakande (Miss World Uganda 2019/2020)
Hassan Hashimi (Emirati Art Curator for Runway Dubai)
Nazih Ali (Group Administration manager of MBC TV)
Enas Ashry (Hijab model and Adidas brand ambassador)
Feiruza Mudessir (Fashion Designer and owner of Finchitua Boutique Dubai)

Runway Dubai's partnership with institutions like the Academy of design and innovation Mauritius, and the
participation of renowned figures such as Hollywood photographer Mickael Chavet and Italian wedding couturier Carla Eusebi, will leave guests enriched, adding layers of expertise and glamour.

AI AND SUSTAINABLE FASHION

Runway Dubai presents its first-ever Sustainable Fashion Summit themed Artificial Intelligence and Sustainable Fashion.

RUNWAY DUBAI

As the curtains close on the 11th season of Runway Dubai, hosted by SEE Institute the Sustainable City, an archetype of modern sustainable living, this year's event has set a new record in the fashion, sustainability, and technology precedent. The two-day event, held on the 22nd and 23rd of November 2023, showcased creativity and a platform for thought-provoking discussions on the future of fashion.

The Sustainable City in Dubai underscored the event's commitment to city-renowned for its sustainable practices, was the perfect backdrop for a platform that is at the forefront of the fashion and eco-friendly initiatives.

This year's panel discussions were a highlight, hosted by Leena Garba (TV host) and Oliver Nakakande(Journalist and Beauty queen) The discussions featured esteemed speakers from various sectors of the fashion and tech industries. The dialogues delved into critical topics like the integration of AI in fashion design, sustainable manufacturing processes, and the future of digital fashion.

Runway Dubai's guest panelists at the the world's first fashion sustainability summit established in 2018, founded by event's strategist, Modupe Omonze.

SEGOUD FOUAD & JEYRAN SOLTANOVA

Middlesex University believes the 1960s was the boom of artificial intelligence with the introduction to the thinking machine.

Our design encapsulates our nostalgic need for timelessness and longevity in the evolving world of AI. Inspired by the forms of 60’s classic automobiles and fashion silhouettes we aim to give artificial intelligence a classic twist with metallic segments and a neo futuristic look. The 60's also broke many barriers in futuristic design. Looking at mary quant’s style and the shift in women’s power in the tech industry.

Cotton as a textile choice has been incorporated into the design of our endeavor symbolizing that nature will constantly be a driving force behind humanity. Manipulation of different cotton textile to a develop our design aesthetic.

CHOREOGRAPHER

IGOR GUTOVSKI

Igor Gutovski is a visionary choreographer whose innovative approach to movement and expression has captivated audiences around the world. With a profound understanding with how the body moves, and an unwavering commitment to artistic exploration, Gutovski has established himself as a trailblazer in the field of contemporary dance, pushing boundaries and redefining the possibilities of physical storytelling.

BALLROOM DANCE COUTURE.

Ballroom dancing is a graceful and elegant form of dance that has captivated audiences for centuries. Originating in the early 19th century, ballroom dancing has evolved into a highly sophisticated and competitive art form, characterized by intricate footwork, precise movements, and stylish attire. The fashion associated with ballroom dancing plays an essential role in complementing the dance itself, adding flair and enhancing the overall visual appeal. When it comes to ballroom dance fashion, both male and female dancers pay careful attention to their attire, ensuring that it not only reflects the style and character of the dance but also provides freedom of movement and highlights the dancers' physique.

In recent years, ballroom dance fashion has witnessed some modernization and fusion with contemporary styles. Designers have introduced innovative designs, incorporating elements from other dance styles or fashion trends. This infusion of modern fashion sensibilities has added an exciting twist to the traditional ballroom dance attire, allowing dancers to express their individuality while maintaining the sophistication and grace that characterize ballroom dancing. Overall, the fashion of ballroom dancing plays a crucial role in enhancing the beauty and allure of the dance itself.
